Axonics® Reports Second Quarter 2021 Financial Results

Total revenue of \$45.9 million in 2Q21, including record SNM revenue of \$40.2 million

Bulkamid[®] revenue of \$5.7 million in first full quarter since acquisition

Fiscal year 2021 revenue guidance increased to a range of \$186 million to \$188 million

IRVINE, Calif – August 5, 2021 – Axonics, Inc. (Nasdaq: AXNX), a global medical technology company that is developing and commercializing novel products for the treatment of bladder and bowel dysfunction, today reported financial results for the second quarter ended June 30, 2021.

"This quarter's record revenue result reflects the growing demand for our best-in-class incontinence solutions," said Raymond W. Cohen, chief executive officer of Axonics. "Clinical outcomes and satisfaction with our rechargeable sacral neuromodulation (SNM) system remain high, with over 12,000 patients having been implanted since our U.S. commercial launch in late 2019. Given the strong commercial momentum for both SNM and Bulkamid, we have increased our fiscal year 2021 revenue guidance to be in the range of \$186 million to \$188 million."

Cohen continued, "During the second quarter, we trained our entire U.S. field team on Bulkamid and are now executing a broad rollout to physicians across the United States. Physician enthusiasm to incorporate this next-generation bulking agent into their practices to treat female stress urinary incontinence is significant as evidenced by our second quarter results and the six fully booked regional seminars we are hosting this summer to provide Bulkamid wet-lab training. In late June, we filed a PMA supplement with the FDA for our new long-lived, non-rechargeable implantable neurostimulator. We anticipate the 10-year life and fully recharge-free system will be a very attractive proposition for patients and physicians. The progress on these key initiatives and the continued expansion of our U.S. commercial team gives us confidence in achieving our ambitious long-term growth objectives."
